Set up your PlayStation 2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned ON. Press the RESET button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the DRIVE3R disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

**Memory Card (8MB) (for PlayStation 2)**

To save game settings and progress, insert a memory card (8MB) (for PlayStation®2) into MEMORY CARD slot 1 of your PlayStation®2 system. You can load saved game data from the same memory card or any memory card (8MB) (for PlayStation®2) containing previously saved games.

### Switch Camera View

*DRIVER* can be played entirely in first-person view (inside the vehicle or through Tanner's eyes) or third-person view (behind the vehicle or behind Tanner). Press the **SELECT** button to toggle between the two settings.

**Pause**
Press the **START** button to pause the game.

## On Foot

During Undercover missions, you can exit your vehicle and walk freely around the city. While on foot, you can perform basic functions, such as unlocking doors, flipping switches, setting detonator timers, etc. Many of these tasks are required to complete the missions.

### Run

Press the **up directional button** or move the **left analog stick** forward to run in the direction you're facing.

### Move Backward

Press the **down directional button** or move the **left analog stick** down to move backward.

### Exit a Vehicle

Press the **L1 button** to exit a vehicle.

### Enter a Vehicle

When you're done walking, you'll want some wheels. To jack a car, walk into the path of an oncoming vehicle, causing it to stop. Once the car is stopped, press the **L1 button** to climb in and get behind the wheel. Most vehicles in the game can be stolen this way.

### Draw Weapon

Press the **△ button** to draw or holster your currently selected weapon. Press the **R1 button** to fire.

### Change Weapon

Press the **△ button** to scroll through the weapons. Press the **R1 button** to select the weapon. Press the **△ button** to reload.

### Ammo

You can automatically re-equip with ammo by walking over dead gunmen.

### Crouch

Press the **L2 button** to crouch while standing. When running, press the **L2 button** to run into a roll.

### Jump

Press the **X button** to jump while on foot.

### Actions

When on foot you can perform mission-specific actions by pressing the **L1 button**. In some missions you will be required to trigger switches, which are highlighted by a bright yellow box.
THE STORY
A gang of Miami car thieves attempts to ship 40 of the world’s most expensive cars to a mysterious international buyer. Taking their pick of cars in Miami and the South of France, the gang keeps on the move and coordinates the sale in Istanbul, a city straddling both Europe and Asia. But in the gang of car thieves, posing as a getaway driver, is Tanner, an obsessive and ruthless undercover cop, determined to stop the sale of the cars and discover the identity of their buyer.

You play the role of Tanner as you work both for and against the gang of car thieves. You must use your skills in driving and firearms to infiltrate your way into the gang and then work out how to stop them in time.

There are 40 stolen cars. They have a street value of $20 million. But there is only one cop who counts.

THE CHARACTERS

Tanner
Undercover cop a.k.a. “The Driver.” Obsessive risk taker, with brutal methods, accustomed to highly dangerous undercover work. Frequent tendency to ignore and override authority.

Tobias Jones
Police detective. Tanner’s partner. Cool, calm and confident, accustomed to working with Tanner; admiring and repelled by his methods in equal measure. Jones is more restrained, but no less dedicated.

Jericho
Former lieutenant to Solomon Caine, a gangster with an empire stretching from Chicago to Vegas. Unpredictable and unfappable, his ruthlessness is matched only by Tanner, the man who’s trying to stop him.

Calite
Head of “South Beach,” a notorious Miami-based car theft outfit. She is cold, efficient and ambitious. They say she once killed her own crew members in a hostage standoff — no one has crossed her since.

MAIN MENU

After the boot-up sequence, you'll be taken to the Main Menu, where you can choose from various options and game modes. Press the up and down directional buttons to highlight the option or game you want. Press the × button to select.

UNDERCOVER

This is the story mode and the main game in DRIV3R. You may want to try the “Take A Ride” mode first to polish up your behind-the-wheel skills before embarking on this expansive range of missions.

Continue Game
Load and continue your previously saved game.

New Game
Start a new Undercover game. If you want to save your game, you must have a memory card inserted in MEMORY CARD slot 1.

Replay Mission
You have the option of replaying completed missions. Once you have selected a saved mission, a short movie will play, which will bring you up to speed with the storyline to that point in the game.

View Cutscenes
View the cinematic sequences to bring you up to speed on the DRIV3R storyline.

TAKE A RIDE

In this mode, you can freely drive wherever you like, taking any vehicles you can see, picking up police tails and losing them however you want. Explore cities to unlock cheats and secrets. Warning: If you unlock any item in Take A Ride the auto-save feature will not be initiated. In order to save your game progress, exit the game and save your profile manually. Your profile can be located in the Options Menu under Settings > Profiles.

DRIVING GAMES

Quick Chase
Chase and destroy the opponent’s car before the timer runs out.

Quick Getaway
Ditch the cops in the fastest time possible.

Trailblazer
Knock over a trail of cones placed around the city. You’ll start with a set time on the clock and receive one additional second for each cone hit. Reach the end in the fastest time while hitting as many cones as possible.

Survival
Survive as long as possible while manic cops ram and try to wreck you.

Checkpoint Race
Race from one checkpoint to another. Each checkpoint is placed somewhere in the city. Use your map to find the quickest route through all of the gates in the fastest possible time.

Gate Race
Drive through as many cones as possible. If you hit a cone, time is deducted from your total. The gates become narrower as you progress. Reach the end before time runs out.
OPTIONS

Extras: Access to a variety of bonus materials.

Replays: This section takes you to the Replay Management screen, where you can load, view or delete any saved replays. Once you've selected a replay, you can take it into the Film Director and start editing.

Profiles: You can load / save or delete any saved profiles.

SETTINGS

Sound

SFX: Use the right or left directional buttons to increase or decrease the sound effects volume.

Music: Use the right or left directional buttons to increase or decrease the music volume.

Mode: Select mono, stereo or surround sound.

Accept: Confirm changes and return to the Settings Menu.

Display

Subtitles: Turn the on-screen subtitles ON / OFF.

Speed: Choose the unit of measurement for the speed display: miles per hour (MPH) or kilometers per hour (KPH).

Aspect Ratio: Choose 4:3 for normal televisions or 16:9 for widescreen.

Adjust Screen: Use the directional buttons to adjust the screen position.

Accept: Confirm changes and return to the Settings Menu.

Controls

Vibration: Turn the DUALSHOCK 2 analog controller vibration function ON / OFF. During the game, the controller will vibrate in response to your actions. For example, you'll feel vibrations whenever the cops spot you, or when you collide with another car or object.

Invert Look: When turned ON, pressing up on the right analog stick will cause you to look down and pressing down will cause you to look up.

Look Sensitivity: Adjust how sensitive the look function is to right analog stick input.

Auto-Aiming: When this option is enabled, the target crosshair will automatically drift and lock on to the nearest target.

Controller Configuration: View the controller configuration.

Accept: Confirm changes and return to the Settings Menu.

Game

Auto Weapon Upgrade: When turned ON, your weapon selection will change to the better weapon when one is acquired.

Thrill Cam: Adjust the amount of blur displayed during a Thrill Cam view. Turn the Pressure Slowmo ON / OFF.

Accept: Confirm changes and return to the Settings Menu.

Language

Audio: Select a language for the in-game dialogue.

Text: Select a language for the in-game text.

Accept: Confirm changes and return to the Settings Menu.

IN-GAME MENUS

Pause Menu

Press the START button to display the map for the city you are in. You can rotate, move and zoom in on the map to find the exact location you want.

To rotate the map clockwise move the right analog stick left. Rotate the map counterclockwise by moving the right analog stick right.

Move the left analog stick to move the map. The map can be moved in any direction on the screen.

To zoom in, move the right analog stick forward. Move the right analog stick back to zoom out.

Continue: Continue with the game.

View Replay: Show an Auto Director Replay.

Film Director: Launch the Film Director.

Thrill Cam: Press the L1 button and R1 button simultaneously to see the action in dramatic real-time slow motion. Adjust the amount of motion blur displayed by increasing or decreasing the setting. Turn the Pressure Slowmo ON to make the slowmo sensitive to the pressure you apply to the buttons. Release them to return to normal speed.

Options: Turn the controller vibration function ON/Off and adjust SFX and Music volume.

Restart: Start the game over.

Quit Game: Quit and return to the Main Menu.

Mission Complete

After successfully completing a mission, you'll have several options.

Next Mission: Continue on to the next mission.

View Replay: Show an Auto Director Replay.

Save Replay: Save your replay onto the memory card.

Save Profile: Save your game progress.

Film Director: Launch the Film Director.

Restart: Retry the current mission or objective.

Quit Game: Quit to the Main Menu.

Mission Failed

View Replay: Show an Auto Director Replay.

Save Replay: Save your replay onto the memory card.

Save Profile: Save your game progress.
**HEADS-UP DISPLAY**

**Timer**
In timed missions, the timer appears at the top-center of the screen, indicating your current mission time. The time can run either up or down, depending on your current mission.

**Cop Location Arrows**
When the cops are chasing you, the red arrows at the bottom of the screen indicate their position. The number of arrows corresponds to the number of cops. How red the arrows are tells you how close they are; the redder the arrows, the nearer the cops.

**Radar**
You can use the radar on the mini-map to help you navigate to your mission objective or driving game waypoint (green dots). The cities in *DIRVR* are huge so it's not always possible to see your objective this way (remember you can see the whole map from the Pause Menu).

You can also use the radar to detect Armories (blue dots), Safehouses (red crosses), baddies (red dots) and cops. Cops are shown as a white cone, indicating their direction and field of vision. Commit felonies in sight of a cop and he'll give chase, alerting HQ to dispatch more cars. When this happens their vigilance increases and range of vision expands. When you're being pursued the radar will flash red and blue. When you lose or badly damage the cop, the radar will return to its usual color.

**Health**
You lose health if you're shot, hit by a vehicle, fall from a great height or spend too long in the water. When this meter reaches zero, you're dead.

Your health is restored when you walk over health packs.

**Felony**
The felony meter appears underneath the Health meter in the top left-hand corner of the screen, indicating your current felony rating. Each time you commit a crime in view of a cop your felony meter rises and the cop will give chase. If you continue to commit crimes while the cops are watching, the meter will rise further, as will the aggression of the officer in pursuit. Here's a brief list of the major crimes you can commit:

- Speeding
- Running a red light
- Destruction of public property
- Dangerous driving

**Drawing a weapon**
**Terrorizing / shooting pedestrians**

**Damage**
Each time you plow your car into another vehicle, wall, building or other solid object, your vehicle takes damage. The severity of the damage depends on the severity of the crash itself. But, once the damage meter, located at the top-left corner of the screen, reaches its limit, your car is wrecked.

You can however crash through benches, tables and various clutter without causing damage to your vehicle.

However, don't forget that if you wreck your car you can get out and steal another one.

**REPLAY MODE**

**Film Director**
This unique and extensive editing suite lets you watch your saved replays or re-edit them into your very own car chase movies. By following the simple instructions over the next few pages, you'll learn about camera placement, frame advancement, zooms and editing. You'll be creating cinematic delights before you know it.

**FILM DIRECTOR CONTROLS**

**VCR Controls**

**Play / Pause**
Select the Play icon and press the **button** to start the replay. Press the **button** again during playback to pause the replay and return to the icon set. Play is normally used to reach a particular point of interest or action sequence that you wish to edit. Press the up or down directional **button** to fast forward or slow down the action.

**Frame Advance**
Carefully tap the **button** to advance the replay frame-by-frame — ideal for picking out those exact moments you want to view or edit.

**Fast Forward**
Hit Fast Forward to view the replay at twice its normal speed. This allows you to select your desired position or camera change. Press the **button** to return to the replay in Pause mode.
Rewind to the Beginning
Select this to instantly rewind and restart your replay. Your camera changes and edits will remain the same after the restart. Note: Only available for use while the replay is playing.

Full Screen
Selecting this toggles off the timeline to display the screen with no overlays. Press the button to toggle the timeline back in view. Note: Only available for use while the replay is playing.

Auto Director
By selecting this icon, the Film Director runs the replay in full and adds cameras automatically. This is an easy way to view your replays, as well as learn the finer details and functions of the Film Director. You can interrupt the replay at any time and edit it using any of the pre-determined Film Director cameras.

Add Camera
Opens up a sub-menu, giving you several different cameras from which to choose. Each added camera will be effective beginning at the point at which you stopped the replay, and will be represented by an orange timeline marker.

Mounted Cameras
Chase Camera
Follows Tanner or the selected vehicle to which the camera is attached.

First Person Camera
Change the viewpoint to a first-person perspective viewed from the vehicle on which the camera is mounted or Tanner.

Rear Bumper Camera
Captures the action behind the selected vehicle. Note: This camera is not available for use when Tanner is on foot.

Wheel Camera
This is the classic wheel mounted camera, giving you a great shot of the road. Note: This camera is not available for use when Tanner is on foot.

Mounted Camera Effects
Slow Motion
Slows down the action in view. The slow motion speed can be adjusted using the slider.

Motion Blur
Blurs the action in view. The amount of blur can be adjusted using the slider.

Which Car?
Cycles through any vehicles involved in the chase to choose a vehicle on which to mount the camera. Press the button to confirm your choice. Note: This icon will not be selectable if you are not involved in a chase.

Rotate Camera
Sets the camera rotating around the object. Note: Can only be used with Chase Camera.

Confirm
You must select Confirm to implement any changes made and to take you back to the play screen.

Tripod Camera
This fixed, static camera focuses on any specified action point or vehicle of your choice. Use the left analog stick to move the camera forward and backward with the L1 button to move the camera down and the R1 button to move the camera up. The right analog stick changes the direction in which the camera is pointing.

Tripod Camera Effects
Slow Motion
Slows down the action in view. Again, the slow motion speed can be adjusted using the slider.

Motion Blur
Blurs the action in view. The amount of blur can be adjusted using the slider.

Zoom
Allows you to zoom in on a target. Amount of zoom can be adjusted using the slider.

Lock Camera to Car
Locks to and follows the car's movement across the screen.

Which Target?
Cycles through and locks onto vehicles that are involved in the chase.

Confirm
You must select Confirm in order to implement any changes made and take you back to the play screen.

Edit Camera
Opens up a sub-menu in which all cameras can be edited by swapping types, changing positions and effects, adjusting start positions and deleting cameras. The camera type will be highlighted to correspond with your position on the timeline. Press the button on the highlighted icon to edit the camera effects or choose one of the other camera types to swap to that camera.

Time
Move the current camera's start time (indicated beneath the orange marker) forward and backward in time by pressing the left and right directional buttons. Press the up or down directional buttons to switch from the start time to the end time. This is indicated by the flashing marker displayed on the timeline bar. Note: The film will not actually move.

Delete Camera Position
Delete the current camera type positioned beneath the orange timeline marker.

Save Replay
Save the replay.

Eject
Exit Film Director.

The Making of DRIV3R
The audio for "The Making of DRIV3R" video plays only in English. To view the localized subtitles, the Subtitles option must be turned ON in the Display Menu and the appropriate text selected in the Language Menu.

ATARI WEB SITES
To get the most out of your new game, visit us at:

http://www.us.atari.com

To send e-cards to your friends, download wallpapers, or get access to other free stuff, visit our freebies section at:

www.us.atari.com/freebies

If you would like to chat with other gamers, as well as developers, visit our Community Forum area at:

www.ataricommunity.com

Kids, check with your parent or guardian before visiting any web site.

Chat Messages: Atari does not monitor, control, endorse, or accept responsibility for the content of chat messages. You are strongly encouraged not to give out identity or other personal information through chat message transmissions. Kids, check with your parent or guardian if you are concerned about any chat you receive.

Use of Atari web sites is subject to terms and conditions, which you can access at:

www.us.atari.com/terms_of_service.asp

TECHNICAL SUPPORT (U.S. & CANADA)

Help Via the Internet
Up-to-the-minute technical information about Atari products is generally available 24 hours a day, 7 days a week via the Internet at:

http://www.atarisupport.com

Through this site you’ll have access to our FAQ (Frequently Asked Questions) documents, our Hints/Cheat Codes if they’re available, and an E-Mail area where you can get help and ask questions if you do not find your answers within the FAQ.

Note: In the event we must send you a Hint Sheet, FAQ document, patch or update disc via E-mail, we may require verifiable consent from a parent or guardian in order to protect children’s privacy and safety online. Consent Forms are available at the web site listed above.

Help Via Telephone in the United States & Canada
For phone assistance, call Atari Technical Support at (425) 951-7106. Our Interactive Voice Response system is generally available 24/7, providing automated support solutions immediately.

This console-based product has automated support, which includes information such as gameplay tips, information on Control Keys, possible Cheat Code combination keys, and instructions for finding secret screens and/or additional game levels (if these type of items exist and are made available for this particular product).
Great News! We've improved our Automated Systems so that you can get product-specific Troubleshooting help more quickly. All you need to do is enter the product's Part # when prompted to do so. This will take you directly to all of our known issues and solutions for this title. The product's Part # is located in several places (on the CD label, Game Pak, package and/or plastic disc case, if applicable) and is usually identified by a number such as 04-12345. When prompted by the Automated System, enter the last five digits of your product's Part #. (For example, Part # 04-12345 would require that you enter the "12345" portion of the number for that product.) Note: Some products simply feature a five-digit Part # without an "04-" prefix.

Live support is generally available Monday through Friday, 8:00 AM until 6:00 PM (Pacific Time). Note: We may be closed on major holidays.

**Product Return Procedures in the United States & Canada**

In the event our technicians at (425) 951-7106 determine that you need to forward materials directly to us, please include a brief letter explaining what is enclosed and why. Make sure you include the Return Merchandise Authorization Number (RMA#) supplied to you by the technician, and your telephone number in case we need to call you. You will receive the mailing address when the technician gives you the RMA#. Any materials not containing this RMA# will be returned to you unprocessed.

**Warranty Policy in the United States & Canada**

If our technicians determine that the product storage medium is found to be defective within ninety (90) days of original purchase, (unless otherwise provided by applicable law), Atari will replace the item free of charge, to the original purchaser, if the item is accompanied by the original dated receipt and packaging.

---

**DRIV3R - THE SOUNDTRACK**

Ear-crunching drums, blistering guitars, scorching vocals, ripped up synth, a busted-up drum machine and some of the most exciting underground bands around were thrown into a blender, and out shot **DRIV3R — The Soundtrack**.

Imagine trawling through radio stations late at night, so late it's starting to be early. You find a signal where you never noticed one before. You hear a DJ talking, playing tunes, and talking, and it's like the unstoppable last will and testament of a lost prophet spilling out into the world. If no one listens he still talks all the same, pours out what his experience and insight over long dark years have given him. And for a time you listen, as he carries you on a journey which though his, is also yours and everybody's. Then the next night you may try to find him again, and the station will be gone.

This was the voice of Iggy Pop.

Maurice.

www.mauricesuckling.com

**"c'mon and try"**

**mellowdrone**

[Link: www.mellowdrone.com]

**"Big Brat"**

**Phantom Planet**

Fredonia, that famous New York Amish community, had no idea what was going down in that log cabin in the woods. Phantom Planet were holed up in there with producer Dave Fridmann. From that session comes "Big Brat."

[Link: www.phantomplanet.com]

"Big Brat" features in the Face Facts scene, taken from the album Phantom Planet, released June 2004.

**"Bimme Danger"**

**Iggy And The Stooges**

Track 2 of the Raw Power LP, the album that drop kicked Punk Rock into existence. When that Punk ball lands in '76, three years later, the world panics.

[Link: www.iggypop.com]

“Bowels Of The Beast”

The Raveonettes

So what’s it all about, Raveonettes? “It's about the ground whooshing transformative power of unbridled electricity.” Their debut EP won Best Rock Album in their native Denmark last year. Every track was in Bb minor, was under 3 minutes long and used no more than 3 chords. That’s a bolt of lightning, and it’s just struck again in their new album Chain Gang of Love.

www.theraveonettes.com

“Boy From The City”

SLO-MO

“The boy from the city is operating with an overload of information.” He's got wide-boy swagger, drawing the sharp lyrics of a tragic-comic story, sarima beat, burrugs and fuzz guitars. It's a sound oscillating between laid-back and stamping all over you.

SLO-MO on www.circusrecords.ne:

“Boy From The City” features in the Escape scene, taken from the album SLO-MO, 2003.

“Destiny”

Syntax

Listen, and there’s a relentless surge, growing and pushing up, driving through unavoidable and inescapable. Like the roots of a black plant rippling through concrete, on the palms of the black stalks the question clings to the thick air: how can I escape the path that I’m on? Syntax are on their way.

www.syntaxonline.co.uk

“Ripe For The Devil”

Okuniev

The devil is a fallen angel of god, banished from heaven for questioning. Okuniev are musicians and visual artists. They are from East London, which is below Angel on the underground. They have questions too. Can the blind not see them with their ears and can the deaf not hear them with their eyes?

www.okuniev.com

“Ripe For The Devil” features in the Istanbul scene, taken from their debut LP, released Summer 2004.

“Move Over”

Teddybears STHLM

The Teddybears STHLM started life as a thrash punk band on the Stockholm underground. They came to realize they could cause more havoc and throw more surprises in the studio, so that’s what Patrik Ave, Klas Åhlund and Jocke Ahtund do now.

www.teddybearssthlm.com

“Move Over” features in the menu screens. Teddybears STHLM have just finished working on their new album Fresh!

“Evil Brother”

“The 2nd Evolution”

“Stand Off”

Narco

“Look out baby ’cause I’m using technology.” No lows. No chords. Real people and real machines. Ultra modern and no compromise. In your face and going through it. Like the man says, “what do you think?”

www.narcomusic.co.uk

“Evil Brother,” “The 2nd Evolution” and “Stand Off” feature in DRIVER, and are taken from the album Control Of The Stereo, released Summer 2004.

“Black Thread”

Los Halos

The truth is such a simple lie. If truth is finite and less than the space it hopes to fill, then lies fill the vacuum. Since 1998 Los Halos have filled the space with their truth.

www.loshalos.com

“Exit”

Stateless

“I used to think it was a beautiful dream... to fly away like a bird. Birds get shot down.” There’s the spinning and reaching in the keyboards, like a small bird tied to a post trying to fly, straining to get away only going round and round. But in the chorus you start to believe it’s going to get free.

www.stateless onlin.com

“Exit” features in the Face Facts and Drop Site #2 scenes, taken from their debut album, released late 2004.
"Zero PM"

The BellRays
I had this dream where I was at a gig hearing explosions of sound from a band, my mind crashing backwards trying to find ways to describe them, slamming into dead ends. I was afraid to wake up, when I did I swear I smelled octane. Meet The BellRays. The band beyond your dreams.

www.thebellrays.com

DRIVER features the track "Zero PM" in the end credits, taken from the album *Meet The BellRays*, 2002.

"Static In The Cities"

Hope Of The States
Drive as fast as you like, for as far as you like and Hope Of The States will still be right where they were when you started; still inside you. The solitude of the guitar, and the soaring aspiration of the strings. We can’t escape these things. They are us.

www.hopeofthestates.com

"Static In The Cities" features in the Contacts scene. Hope Of The States release their debut album Summer 2004.

Nimrod Productions and DRIVER:

For Nimrod Productions DRIVER was a wholly engrossing project. Responsible for the overall music design — from selecting the tracks for the album with game developers Reflections — to writing the original score for the game, Nimrod strove for a filmic feel with a cutting edge. They spent over six months recording with Narco and The Nimrod Session Orchestra at their Oxfordshire studios, as well as jetting out to Miami to record the legendary Iggy Pop. Nimrod, alongside Epic Records and Reflections, have been working for DRIVER — The Soundtrack to set a new standard for all game soundtracks to follow.

END-USER LICENSE AGREEMENT

IMPORTANT — READ CAREFULLY: Please be sure to carefully read and understand all of the rights and restrictions described in this End-User License Agreement ("EULA").

AGREEMENT

This document is an agreement between you and Atari, Inc. and its affiliated companies ("Company"). The enclosed software game disc(s), cartridge or Game Pak ("Software") and any accompanying printed materials are licensed to you only on the condition that you accept all of the terms contained in this EULA.

By opening this package and installing or otherwise using the Software you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA you may not install or use the Software and within 15 days of purchase you must call the Tech Support telephone number listed in the manual accompanying the Software (the "Manual"). Select the Automated Phone System's Main Menu option for Consumer Services and follow the prompts.

You will be given a Return Merchandise Authorization number (RMA #) by the technician. You then have 15 days from the date of this contact to return the Software in its protective covering, the Manual and the original sales invoice to the address supplied to you.

If this is a PC product, when you install the Software you will be asked to review and either accept or not accept the terms of the EULA by clicking the "I Accept" button. By clicking the "I Accept" button you acknowledge that you have read the EULA, understand it and agree to be bound by its terms and conditions.

COPYRIGHT

The Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. All title and copyrights in and to the Software (including but not limited to any images, photographs, animations, video, music, text and "applets" incorporated into the Software) and any printed materials accompanying the Software are owned by the Company or its Licensors.

GRANT OF LICENSE

The Software is licensed and not sold to you and its use is subject to this EULA. The Company grants you a limited, personal, non-exclusive license to use the Software in the manner described in the user documentation. The Company reserves all rights not expressly granted to you in this EULA.

PERMITTED USES

1. If the Software is configured for loading on a hard drive, you may install and use the Software on a single computer.

2. You may make and maintain one copy of the Software for backup and archival purposes, provided that the original and copy of the Software are kept in your possession.

3. You may permanently transfer all your rights under this EULA, provided you retain no copies, you transfer all of the Software (including all component parts, the media and printed materials and any upgrades) and the recipient reads and accepts this EULA.
RESTRICTIONS
1. You may not delete or obscure any copyright, trademark or other proprietary notice on the Software or accompanying printed materials.
2. You may not decompile, modify, reverse engineer, disassemble or otherwise reproduce the Software.
3. You may not copy, rent, lease, sublicense, distribute, publicly display the Software, create derivative works based on the Software (except to the extent expressly permitted in the Editor and End-User Variation section of this Agreement or other documentation accompanying the Software) or otherwise commercially exploit the Software.
4. You may not electronically transmit the Software from one computer, console or other platform to another or over a network.
5. You may not use any backup or archival copy of the Software for any purpose other than to replace the original copy in the event it’s destroyed or becomes defective.

EDITOR AND END-USER VARIATIONS
If the Software includes a feature that allows you to modify the Software or to construct new variations (an “Editor”), you may use such Editor to create modifications or enhancements to the Software, including the construction of new levels (collectively the “Variations”), subject to the following restrictions. Your Variations: (i) must only work with the full, registered copy of the Software; (ii) must not contain modifications to any executable file; (iii) must not contain any libelous, defamatory or other illegal material, material that is scandalous or invades the rights of privacy or publicity of any third party; (iv) must not contain any trademarks, copyright-protected work or other property of third parties; and (v) may not be commercially exploited by you, including but not limited to making such Variations available for sale or as part of a pay-per-play or timesharing service.

TERMINATION
This EULA is effective until terminated. You may terminate this EULA at any time by destroying the Software. This EULA will terminate automatically without notice from the Company if you fail to comply with any provisions of this EULA. All provisions of this EULA as to warranties, limitation of liability, remedies and damages will survive termination.

LIMITED WARRANTY AND DISCLAIMER OF WARRANTIES
You are aware and agree that use of the Software and the media on which it is recorded is at your sole risk. The Software and media are supplied “AS IS.” Unless otherwise provided by applicable law, the Company warrants to the original purchaser of this product that the Software storage medium will be free from defects in materials and workmanship under normal use for ninety (90) days from the date of purchase. The warranty is void if the defect has arisen through accident, abuse, neglect or misapplication. If the Software fails to conform to this warranty, you may at your sole and exclusive remedy, obtain a replacement free of charge if you return the defective Software. Follow the Product Return Procedures described in the Manual. The Company does not warrant that the Software or its operations or functions will meet your requirements, or that the use of the Software will be without interruption or error.

LIMITATION OF LIABILITY
IN NO EVENT WILL THE COMPANY OR ITS EMPLOYEES OR LICENSORS BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, OR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR INJURY TO PERSON OR PROPERTY, FOR LOSS OF PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, LOSS OF PRIVACY, FAILURE TO MEET ANY DUTY AND NEGLIGENCE) ARISING OUT OF OR IN ANY WAY RELATED TO THE USE OR INABILITY TO USE THE SOFTWARE, EVEN IF THE COMPANY OR AN AUTHORIZED REPRESENTATIVE OF THE COMPANY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE EXCLUSION MAY NOT APPLY TO YOU.

IN NO EVENT WILL THE LIABILITY OF THE COMPANY FOR DAMAGES WITH RESPECT TO THE SOFTWARE EXCEED THE AMOUNTS ACTUALLY PAID BY YOU FOR THE SOFTWARE.

CHOICE OF LAW AND VENUE
This EULA is governed by the laws of the United States of America and the State of New York, exclusive of its conflicts of law provisions. The exclusive venue for litigation regarding or arising from this EULA is New York County, New York, and you agree to submit to the jurisdiction of the courts of New York County, New York for any such litigation.

MISCELLANEOUS
If any provision or portion of this EULA is found to be unlawful, void, or for any reason unenforceable, it will be severed from and in no way affect the validity or enforceability of the remaining provisions of the EULA.

This EULA constitutes the entire agreement between you and the Company regarding the Software and its use.
